LOGO USAGE GUIDE · 2026

A Khmer gable, drawn with light

Pteah (ផ្ទះ) means house in Khmer. Instead of drawing a house, the logo takes the most recognisable part of a traditional Khmer home: its gable.

- **Sunray gable** — the fan of boards found in Khmer house gables, with the morning sun rising inside.
- **Chovea** — the slender hooked finial at the peak.
- **Naga hooks** — the upturned ends of the bargeboards.
- **Sill** — a firm base: the property, managed.

Steep, light and precise: Khmer in its details, modern in its construction.
